

May 2020 Update News

IFFO's monthly newsletter

Editorial

Supplements containing omega-3 fatty acids are experiencing a growing demand in the midst of the Covid-19 crisis. People want to boost their immunity systems and fish oil capsules are highly sought-after, although no robust data have emerged yet. Treatments containing fish oil, omega-3 fatty acids being trialed on COVID-19 patients are starting to make the headlines and this doesn't come as a surprise considering the range of benefits that fish oil offers. [...]
